

Use MyCrypto

The screenshot shows the MyCrypto web interface. On the left, a sidebar menu includes: View & Send, Create New Wallet, Contracts, Sign & Verify Message, TX Status, Broadcast Transaction, Support Us, Help, Change Language, Change Network, and a status message "Connected to ETH network". The main content area has tabs for "Send Ether & Tokens" (selected), Request Payment, Wallet Info, Recent Transactions, and Address Book. Under "Send Ether & Tokens", there are fields for "To Address" (containing a placeholder address), "Amount" (set to 1 ETH), "Transaction Fee" (set to "Cheap"), and a "Send Transaction" button. To the right, there are sections for "Account Address" (showing a green QR code and address details), "Account Balance" (listing various ETH amounts), and a "Buy ETH with Credit Card" button. At the bottom right is a "Scan For Tokens" button.

Send Transaction

This screenshot is similar to the previous one but highlights the "Amount" input field with a red border. The rest of the interface is identical, showing the transaction setup and associated account information.

Check the Transaction status

The screenshot shows the MyCrypto web interface. On the left is a sidebar with navigation links: View & Send, Create New Wallet, Contracts, Sign & Verify Message, TX Status (which is highlighted in blue), Broadcast Transaction, Support Us, Help, Change Language, and Change Network. The main content area has a title "Check Transaction Status" and a sub-instruction "Enter your Transaction Hash to check on its status." Below this are two input fields: one containing "Feb 9, 2021 8:44 PM - 0xee8fe1... to 0xCC2f64..." and another containing "0xfb8f63065e7dd9d5fd14886bdf12c22c2f941d9439ef3643a35e2fa17b916a". A large blue button labeled "Check TX Status" is centered between them. Below this is a summary card with "Status PENDING", "TX Hash 0xfb8f63065e7dd9d5fd14886bdf12c22c2f941d9439ef3643a35e2fa17b916a", and a "From Address" field showing a QR code and the address "0xa595f1c8000a167c5df110ffea06b2662d00d71020". A green banner at the bottom states: "Your TX has been broadcast to the network. It is waiting to be mined & confirmed. During ICOs, it may take 3+ hours to confirm. Use the Verify & Check buttons below to see. TX Hash: 0xfb8f63065e7dd9d5fd14886bdf12c22c2f941d9439ef3643a35e2fa17b916a". It includes a thumbs-up icon, a "Check TX Status" button, and a close button.

Minining Node1 and copy the enode
